

FORSITE ASSIST

At Forsite Benefits we're continuously looking for ways to enhance your customer experience. It's part of why we offer our service program: Forsite Assist. As we couple proactive service and technology together, we are offering you enhanced ways to get your service and support needs resolved.

What is Forsite Assist?

It is a team-based phone support and online service system that allows you to submit requests for:

- New hire enrollments and terminations
- Human resource and compliance questions
- Assistance resolving employee claim problems
- And more..

For resolution to these and more, you can call our new support line, **920-593-1275** or e-mail **assist@forsitebenefits.com**.

Either of these will expedite your request to our Forsite Assist Service Team so we can provide you and our carrier partners with an even higher degree of responsiveness.
