

LIFE STAGE SUPPORT

At Forsite Benefits we're continuously looking for ways to deliver better benefits. That means making sure that employees know all of their options and how to find the best benefits for the least amount of cost. This is why we created Life Stage Support.

What is Life Stage Support?

Organizations and their employees have saved thousands in premium and out-of-pocket expenses by utilizing this support line. Through our advocacy, a Forsite Specialist will work with an employee to assess their best insurance options depending upon a variety of circumstances:

- Retirement age
- Adult dependent children
- Children under the age of 18
- Employees taking a leave of absence
- Terminated employees

By simply connecting your employees to our team, a personal, confidential appointment will be made to assess their individual situation and coach them through the best choice available.
